

BERKELEY COUNTY, SOUTH CAROLINA

Advanced Infrastructure and Industrial Sites

Additionally, the Jedburg Road Assessment District, conveniently located near I-26, provides over 1800 acres of prime industrial space. This ambitious project designed specifically to accommodate new industry, is the first development of its kind in the state.

Berkeley County continues to develop its infrastructure to accommodate predicted growth. In fact, there is a one-cent sales tax dedicated to ongoing road expansions and improvements. A wide range of industrial sites and buildings ranging in size from 10,000 to 1,000,000 sq. ft. are readily available.

"We're very excited about expanding our operations into Berkeley County and the Lowcountry. The attitude of the area is very positive and invigorating. Everyone has been so accommodating."
Harvey Mason, CEO of Charlotte-based Perigon Engineering
